

Ruby Forest E-mail List Update

Contributed by Ruby Forest Communications Committee
Wednesday, 12 October 2005
Last Updated Thursday, 05 January 2006

The Ruby Forest email list and website have been improved to better fit our community's needs for communication! Please note that your new Ruby Forest website address is www.rubyforest.net (.net, not .com). Be sure to change your bookmarks in your browser, and spread the word to your neighbors.

If you had been on our Ruby Forest email group, note that you should have received an invitation to join the new Ruby Forest email group. You will need to accept this invitation to be a part of this updated group. To subscribe another member of your family, or an alternate email address, send a blank email (from the address you want subscribed) to subscribe@rubyforest.net (.net, not .com).

****NOTE**** If you did not receive the invitation (from Yahoo! Groups), please check your Spam or Bulk Mail box to make sure it was not directed there.

The previous mailing list (.com) is no longer valid and we must move forward in order to keep our communications up-to-speed. To continue to communicate with your Ruby Forest neighbors via email, simply send an email to everyone@rubyforest.net (please note the change to .net, no longer .com).

If you wish to no longer receive emails pertaining to Ruby Forest, or have moved from the community, you may unsubscribe by emailing unsubscribe@rubyforest.net (.net, not .com) or contacting the Communications Committee at communications@rubyforest.net (.net, not .com).

Thank you for helping us continue to make Ruby Forest a great place to live!
