

Ruby Forest – Paint and Exterior Guidelines – 2023

Ruby Forest HOA is providing both general guidelines and optional color palette recommendations

Quick guide of things to consider when choosing exterior paint

- Color of your roof shingles
- Color of your windows
- Gutters and downspout placement
- Mortar color
- All the colors in the stone or brick especially the dark ones if applicable
- Color of the immediate neighbors' home

Ruby Forest - Guidelines for Exterior Painting

- **Main House Colors:** Light to medium shades in a natural or neutral color
- **Trim:** Light shades in a natural or neutral color. Black, gray and brown will be considered with some schemes
- **Shutters and Doors:** Do not have to be a natural or neutral but should be a deeper, darker tone
- **Metal Awning Caps:** Black, iron or bronze
- **Gutters and Downspouts:** Match trim color OR black, iron or bronze
- **Garage Door:** Should match or be similar to the trim color (low contrast)

* *Colors should not be an identical match directly adjacent or across the street*

All exterior paint work still requires an email submission of the “Exterior Improvements Application” to covenants@rubyforest.net.

Ruby Forest - Recommendations For Exterior Painting

- Ruby Forest HOA hired a professional paint consultant to offer recommendations on exterior paint colors in order to create a good appearance and help maintain neighborhood value. These specific colors palette recommendations are optional.
- The color numbers and names listed for recommendations are all from Benjamin Moore unless otherwise specified.
- You may give the color name and number to the store of your choice.
- You are responsible for ensuring that the color paint and the color on your house matches the approved colors. You can do this by going to a Benjamin Moore store such and getting a sample size to see how the color will look before going forward.
